

## CLAUDIU JITEA

main areas of interest are: networking, virtualization (VMWare), cloud infrastructure, seeing myself as a fast learner and eager to broaden my professional skill spectrum as much as possible

### SKILLS

Networking:

- firewalls, Routing, Switching, NAT, DHCP, DNS, TCP/UDP, load balancing
- familiar with VTP, STP, LACP, VRRP, CIDR, and HA firewall config

### CERTIFICATION

- VMware Certified Professional 6 – Data Center Virtualization (VCP6-DCV)

### COURSES

- Cisco Networking Academy - CCNA Routing and Switching

### LANGUAGES

romanian - native  
english - professional proficiency

### WORK HISTORY

## **NETWORK ADMINISTRATOR – OTAVA**

August 2019 – June 2021

### **Daily Tasks/Responsibilities:**

- configure new or expanding existing environments for customers - virtual firewalls – Fortigate Clavister, deploying new VLANs, firewall rules and redundancy as per requirement
- deploy IPSEC, SSL and interconnects with customer equipment and across datacenters
- work with dynamic routing protocols OSPF, BGP
- configure L2/L3 redundancy using LACP, VPC, VRRP and GLBP
- deploy and configure virtual network infrastructure using VMware NSX and Azure for migration in and/or production environments
  - deploy the infrastructure for replication/DR using Zerto/ArcserveRHA
- design, build and document networking infrastructure as part of onboarding customers in Otava's Environment
- help customers understand their resources need when we migrate in and preparing the infrastructure to support the new workloads from the client
- work on document knowledge articles and documenting new deployments for future references when deploying or expanding the clients infrastructure and to describe best the processes and resources used into the deployment

**Technologies, tools, methodologies used:** FortiGate, Clavister, Cisco Catalyst, Nexus 2k, 5k, 7k / ASR & ISR Routers, Dell switches, Arista switches, Cumulus switches, ASA, PRTG, Alert Logic

## **GLOWGISTICS, TULSA, OK**

### **Continental Truck Driver, September 2011 — Present**

**Operate tractor-trailers and haul trucks across 15 states, primarily transporting**

**equipment, machinery, and tools for highway and bridge construction and**

**maintenance**

**Plan travel routes in accordance with applicable traffic and bulk cargo**

**transportations laws, regulations, standards, and guidelines**

**Ensure timely delivery of all goods while preserving quality and integrity of the**

**freight**

**Inspect vehicle before and after trips, logging and reporting mechanical problems**

**Detect and eliminate safety hazards during travel**
